THE FLYING DOCTOR

Don Spencer/Allan Caswell

Published by MCA-Gilbey

Some people live in a city,
Some people live in a town.
And when they get sick and need a doctor,
There's always a doctor around.
But some people live in the outback -
And there are no doctors out there.
It could take days to reach them by road,
So the doctor travels by air.

Chorus

**Call the doctor, the Flying Doctor.
Call him on the radio.
Call the doctor, the Flying Doctor.
He'll be there before you know.
Call the doctor, the Flying Doctor.
Hero of the outback skies!
Call the doctor, the Flying Doctor.
Helping folks and saving lives.**

Children who live in the outback,
All know the name of John Flynn.
John Flynn's the man who started it all,
The outback is grateful to him.
So take to the sky Flying Doctor,
Be ready to go anywhere.
People in trouble look up to the sky,
'Cause they know that you'll soon be there.

Chorus x 2
